WFI's Engineered MultiPly Architectural Collection

The Latest New Products
& Programs from WFI

the world's finest wood floors !

A UNIQUE FLOORING FORMAT FROM WFI !

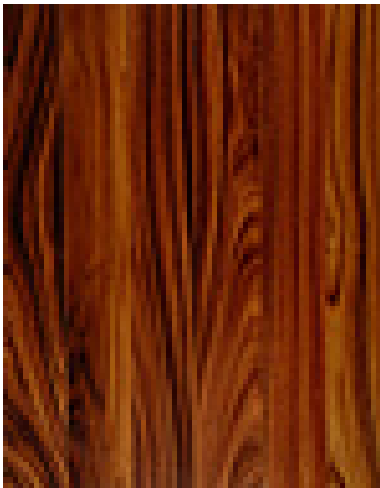

WFI is pleased to introduce our engineered MultiPly Architectural Collection flooring format. We invite your inquiries on how to become the exclusive distributor in your geographic market.

MultiPly, with only one full width / length, sliced wear layer per piece, is offered in 3/8" by 5" widths, supplied in random lengths to 87" long.

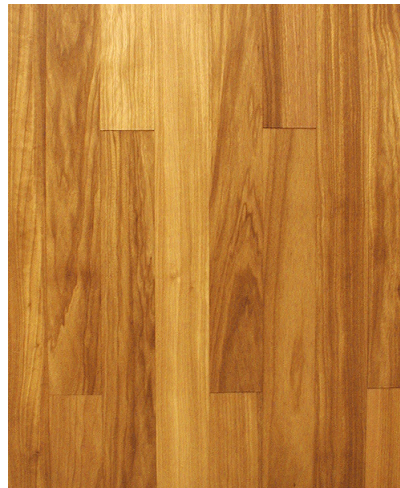

Unlike other domestic multiply manufacturers, WFI offers our 5" width in long lengths to 87", creating the proper proportional, width to length, look.

MultiPly is milled with Ultra MicroEased edges and square ends, and is pre-finished with one of the hardest wearing finishes on the market today. WFI offers the MultiPly Architectural Collection in 3 exotic species.

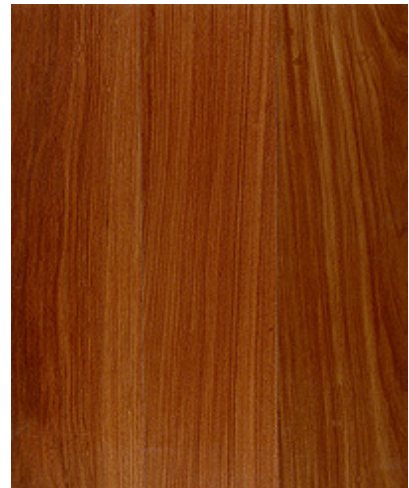

WFI's MultiPly - Architectural Collection Exotic species

Rosewood, Bolivian

Timborana

Mahogany, Santos

WFI'S ENGINEERED MULTIPLY - TECHNICAL SPECIFICATIONS

The 3/8" thick **construction** utilizes a (1/16") thick, sliced veneer wear layer, bonded to 5 internal crossbanded plies and balanced by a like backing veneer. This construction, utilizing the latest slicing technology, allows WFI to offer this flooring line at exceptional value pricing. The floor can be glued or stapled when installing.

The **finish** is 9 Coat, High Wear UV cured Acrylic Urethane w/aluminum oxide in base coats and Anti-Scratch top coats in a Satin Gloss.. We utilize a satin gloss level of approximately 50 (+/-5), which presents the distinctive wood selections in a rich warm look.

The **milling**, performed with diamond tooling and the latest machining technology, is precise and provides a near square edge look.

Widths and Lengths - WFI offers this line in 5" widths 87" long.

Select Grade - *Timborana, Santos Mahogany & Bolivian Rosewood* – is a mixed grained selection, with both flat sawn and straight graining. It is supplied without defect, except in the Bolivian Rosewood, which contains some minor character marking.
